NO GAMBLE

Probably the best reason for beginning a mail order business is that only in this amazing business can you begin with practically no capital and build to almost any size business and income you desire with literally no limit! And all the a part-time basis! You don't have the gamble of quitting your present job or risk your entire further on an unknown factor.

Many people are stuck for life in job they hate because they don't want to take the gamble of risking everything they have built up over the years. This is quite understandable.

Another important plus-factor for the mail order business is the simple fact that it's fun! You will never get tired of the thrill of receiving cash orders in your mailbox. Your mailbox will become virtually a Magic Carpet for you.

MAIL ORDER HAS A BRIGHT FUTURE!

It is going to grow at an astronomical rate! There are several reason for this. It's CONVENIENT. You know how difficult it can be to go shopping. Gas is expensive. Crowded stores are a hassle. Lazy clerks are a bore. It's SAFE. During the past decade more people are becoming afraid to leave their homes to shop in stores where they may be robbed or held hostage, even murdered, by "hoodlums." It's PRIVATE. You may not mind buying a book about many people who find it distressing, especially if they live in a small Town.
