

The Powers Letter!

 Your Mailbox Crammed Full Of \$50.00 Bills Everyday.

\$15,000 A Month Possible!

Several decades ago an old mail order pro sat down and came up with an amazing letter that pulled an 85% response rate. He stated that the best program is a \$50.00 program because it's not too low or too high in cost. He tested and perfected his letter over a five year period and found that the \$50.00 price tag pulled the most responses and orders! His name was "Daniel Powers", and named his new program letter after himself. It's an amazing and powerful letter and kit which contains everything you'll need to get started fast and make it work for you too!

Try this test: Send out 100 letters a week for four weeks - that's 400 letters. You should receive about 300 responses. $300 \times \$50.00 = \$15,000.00$ a month income! Folks, even half that is still \$7,500.00 a month.

To get started, fill in the application below. And remember: This kit contains information not found anywhere else. Thank you and good luck!
