

THE STAMP TREE

Dear Friend,

We all know stamps are one of the biggest expenses in mail order and the costs seem to be increasing every year. We all need them ...and lots of them. This very simple, but inexpensive program was designed for that purpose and can grow loads of stamps for us all. Just send the monitor one book of (20) first class forever stamps. You will receive a copy of this flyer with your own referral code, a 100 opportunity buyers name list on paper, 3" X 8" flyers as envelope stuffers, 2 in ads and a great mail order report entitled "*Mail Order - Getting Started Without Money*". Just place your flyer in all your outgoing mail and when the monitor receives 20 stamps from your coded flyer, the monitor guarantees you will receive 10 stamps from every flyer with your code along with your joiner's name and address. Stamps are guaranteed to be sent every time someone joins. You will also be collecting names for your own mailing list to promote your own offers. So plant your seed today and watch your stamp tree grow.

What if we would go to our mailboxes and have dozens of STAMPS just waiting for us. Wouldn't that be great. So fill out the form below...and plant your seed with 20 First Class Stamps Today. Mail To the Monitor.

Yes, please sign me up!! Enclosed are my 20 stamps.
